

Les champignons de la forêt de Disse au printemps.

V1906

M. Chemarin

Ami du champignon de Divonne.

On trouvera ci-dessous un récapitulatif des récoltes faites en forêt de Disse au mois de mai pour la période 2002-2019. La liste ci-dessous compte 204 taxons.

Agaricus silvaticus
(2013)

Agrocybe erebia
(2018)

Agrocybe molesta
(2007,2008)

Agrocybe pediades
(2006)

Agrocybe praecox
(2003,2006,2007,2009,2010,2013,2014,2018)

Amanita "lividopallescens"
(2014)

Antrodia serialis
(2009,2014)

Antrodia "xantha"
(2014)

Arcyria denudata
Myxomycète. (2018)

Arcyria pomiformis
Myxomycète. (2016)

Artomyces pyxidatus
(2009,2017,2018)

Bjerkandera adusta
(2009,2018)

Bolbitius vitellinus

(2007)

Calocybe gambosa

(2002,2003,2004,2005,2006,2007,2008,2009,2011,2012,2013,2014,2015,2016,2017,2018,2019)

Calvatia excipuliformis

(2009)

Cenangium ferruginosum

Asco. Ellis p.182 fig. 801. Det. FN. (2019)

Ceratomyxa fruticulosa

Myxomycète. Tout blanc. (2003,2005,2018)

Ceriporia viridans

(2009)

Clitocybe suaveolens

(2016)

Clitocybe vermicularis

(2007,2008,2012,2013,2014,2016,2017)

Collybia dryophila

(2003,2005,2007,2009,2010,2011,2012,2013,2014,2016,2018,2019)

Collybia hariolorum

(2006,2008,2009,2013,2014,2015,2016)

Collybia luteifolia

(2007)

Collybia ocior

(2002,2003,2007,2013,2014,2018)

Conocybe coprophila

(2008)

Conocybe tenera

(2006,2012)

Coprinus acuminatus

(2006)

Coprinus atramentarius

Syn. Coprinopsis atramentaria. (2019)

Coprinus auricomus

(2008,2010,2016)

Coprinus kuehneri

(2007)

Coprinus micaceus

Syn. Coprinellus micaceus. (2002,2010,2011,2014,2018,2019)

Coprinus plicatilis

(2009,2010)

Cortinarius crassifolius cf.

(2013)

Cortinarius uraceus

(2016)

Cortinarius zinziberatus cf.

(2012)

Crepidotus mollis

(2007)

Crucibulum laeve

(2007)

Cyatus striatus

(2007,2010)

Daedaleopsis confragosa

(2014,2018)

Daedaleopsis tricolor

(2014,2019)

Daldinia concentratica

(2018)

Datronia mollis

(2008,2009,2014,2015)

Diatrype disciformis

(2014)

Diatrype stigma

(2015)

Discina perlata

(2015)

Disciotis venosa

(2013)

Eichleriella deglubens

(2014)

Encolia furfuracea

(2009)

Entoloma canosericeum

det. CB (2018)

Exidia glandulosa

(2010,2015)

Exidia truncata

(2009,2010)

Exidiopsis calcea

(2005,2006,2013,2014)

Fomitopsis pinicola

(2003,2005,2006,2007,2008,2009,2010,2011,2013,2014,2015,2016,2017,2018,2019)

Fuligo septica

Myxomycète. (2003,2018)

Galerina sideroides

(2006)

Ganoderma applanatum

(2014,2015)

Ganoderma carnosum

Sur souche Picea abies. (2003,2005,2006,2007,2008,2010,2013,2014,2015,2017,2019)

Geastrum corollinum = G.mammosum

(2008)

Geastrum quadrifidum

(2005,2008)

Geastrum sessile

(2012,2017)

Gloeophyllum abietinum

(2009)

Gloeophyllum odoratum

(2005,2009,2012,2013,2014,2015,2016,2017,2018,2019)

Gloeophyllum sepiarium

(2005,2007,2010,2012,2013,2014,2015,2016)

Gloeoporus dichrous

(2019)

Gnomonia cerastris

Sur pétiole de feuille morte Acer. Asco. BK1-371. Det. FN. (2019)

Helvella acetabulum (=Paxina a.)

(2005,2007,2013,2015,2016,2018)

Helvella leucomelanea
(2012)

Hemimycena pithya
(2003)

Heterobasidium annosum
(2004,2005,2006,2007,2009,2010,2012,2013,2014,2015,2017)

Hyaloscypha aureliella
(2014)

Hydropus subalpinus
(2002,2008,2009,2013)

Hymenochaete rubiginosa
(2014)

Hyphoderma radula
(2002,2015,2017)

Hyphodontia arguta
(2019)

Hyphodontia nespori
(2019)

Hypholoma capnoides

Hypholoma fasciculare
(2006,2008,2009,2010,2013,2016,2017,2018,2019)

Hypocrea rufa
(2011)

Hypoxylon fragiforme
(2003,2005,2008,2009,2011,2014,2015)

Hypoxylon fuscum
(2010,2014)

Hypoxylon multiforme
(2015)

Inocybe cervicolor
(2014)

Inocybe queletii
(2003,2005,2008,2013,2015,2016)

Inocybe striata
(2016)

Kuehneromyces mutabilis

(2006,2008,2013)

Lachnella albobiolescens

(2011) Sur feuille de houx.

Lachnum virgineum

Sur faîne de hêtre. (2010,2014,2018)

Lasiobelonium lonicerae

Sur chèvrefeuille. Baral-69. Det. FN. (2016,2019)

Lasiobelonium nidulus (=Dasyscyphus nidulus)

Asco. 0.5-1. mm sur tige de Polygonatum odoratum (Sceau de Salomon) de l'année précédente. (2015)

Lasiobolus ciliatus

Sur excréments de cerf.(2013)

Lepiota cristata

(2013)

Lycoperdon perlatum ?

(2013)

Lycogala epidendrum

Le plus courant des Myxomycètes. Fruct. globuleuses, rose vif. (2003,2005,2007,2012,2014,2015,2016,2018)

Marasmius bulliardii

(2018)

Marasmius collinus ?

Une version de M.oreades à lames plus serrées, stipe creux et odeur peu agréable. A suivre. (2015)

Marasmius oreades

(2006,2008,2010,2011)

Melanoleuca arcuata

(2010)

Melanoleuca cavipes

det. Oscar. (2017)

Melanoleuca melaleuca

(2007)

Melanoleuca polioleuca

det. Oscar.(sans doute le même champi. que ci-dessus!) (2007)

Meruliopsis corium

(2010)

Micromphale foetidum

(2010,2013,2018)

Mitrophora semilibera
(2008)

Mollisia cinerea
(2010)

Mollisia lividofusca
Det. FN. (2019)

Morchella elata
(2019)

Morchella esculenta
(2004,2006,2009,2010,2012,2013,2016,2019)

Morchella rotunda
(2016)

Mycena abramsii
=M.praecox. (2008,2010,2013,2018)

Mycena acicula
Un mini mycène à chapeau orange. (2003,2016)

Mycena aetites
(2015)

Mycena amicta
Stipe floconneux sur toute la longueur. (2012)

Mycena galericulata
(2002,2003,2006,2007,2009,2013,2016,2017,2018,2019)

Mycena inclinata
(2018)

Mycena inclinata f.albopilea ?
(2011)

Mycena leptcephala
Comme son collègue M.renati, il sent le chlore, mais il est blanc, à terre, et non cespiteux. (2006,2009,2018)

Mycena metata
(2006,2008)

Mycena plumipes (= M.strobilicola)
(2003)

Mycena pura
(2003,2005,2013,2016,2017,2018)

Mycena renati
En touffe (conifère ou feuillus). Odeur de chlore et pied jaune.
(2002,2003,2005,2006,2007,2008,2009,2010,2011,2013,2015,2016,2017,2018)

Mycena rorida
(2009)

Mycena rosea
(2016)

Mycena rubromarginata
(2007)

Mycena speirea
(2011)

Mycena stipata
det. Oscar. Syn. *Mycena alcalina*. (2002,2017,2018)

Mycena vitilis
(2013)

Neolentinus adhaerens
(2006,2010,2017)

Nectria cinnabarina
La forme anamorphe, *Tubercularia vulgaris*, est souvent associée sur le même bois. A chercher. (2009)

Oligoporus stipticus
(2005,2007)

Oudemansiella radicata
Syn. *Hymenopellis radicata*. (2019)

Panellus stipticus
(2011)

Patinellaria sanguinea
Syn. *Tapesia sanguinea*. Petits discomycètes sur subiculum rouge sang. (2019)

Peniophora incarnata
(2015)

Peniophora limitata
(2018)

Peziza arvernensis
(2013)

Peziza repanda
(2018)

Peziza badioconfusa Korf., = *P.phyllogena*
(2002,2007,2014,2016)

Phellinus conchatus
(2015)

Phellinus ferruginosus
(2018,2019)

Phellinus punctatus ?
(2015)

Phellinus hartigii
(2005,2010)

Pholiota aporos
(2006,2010,2016,2017,2018)

Physarum leucopus
Myxomycète. (2018)

Pluteus cervinus
(2008,2009)

Pluteus nanus
(2002)

Pluteus podospileus
(2007)

Pluteus pouzarianus
(2013)

Pluteus primus
(2009,2013,2014)

Pluteus romelli
(2007)

Pluteus salicinus
(2012,2019)

Polyporus brumalis
(2003,2006)

Polyporus ciliatus
(2003,2004,2006,2008,2010,2011,2013,2016,2017,2018)

Polyporus squamosus
(2009,2015,2016,2017)

Polyporus tuberaster
(2002,2003,2007,2008,2010,2012,2013,2014,2015,2016,2017,2018)

Polyporus varius
(2013,2016)

Polyporus varius var. nummularius
(2016)

Protocrea farinosa

Hypocreales (Pyrénomycetes), parasite sur Fomitopsis pinicola (2015,2019)

Psathyrella candolleana

(2017)

Psathyrella cortinarioides

= P.frustulenta (Ref.Funga Nordica p.621-622) det. CB (2013)

Psathyrella obtusata var.utiformis

det. Oscar (2007)

Psathyrella spadicea cf. (Schaeff.) Sing.

det. CB (2018)

Psathyrella spadiceogrisea

(2005,2007,2009,2010,2012)

Psathyrella spadiceogrisea f.mammifera

det. Claude (2007)

Psilocybe apeliculosa

det. Oscar (2007)

Pycnoporellus fulgens

(2010)

Pycnoporus cinnabarinus

(2015,2016)

Pyrenopeziza petiolaris

Sur pétiole de feuille Acer morte. Asco BK1-282. Det. FN. (2019)

Ramaria sp.

Joli, mais comme d'habitude reste indéterminé... (2005,2007)

Rhizopogon rocabrunae

Tons rougeâtre-orange. Verruqueux (s.l). Péridium mince. Gléba cérébriforme blanche. Saveur douce. KOH brun violacé sur péridium.

(2007,2010,2012,2013,2015,2016)

Rhytisma acerinum

(2014,2018,2019)

Rickenella fibula

(2009)

Ripartites tricholoma f.helomorphus

Syn. R. helomorphus, R.metrodii (2015)

Rustroemia elatina

(2002)

Saccobolus depauperatus
(2013)

Sarea resinae
(2016)

Sarcosphaera crassa
(2005,2010,2013,2015,2016)

Schizophyllum commune
(2010,2015,2019)

Schizopora paradoxa
(2014)

Scytinostroma odoratum
(2017)

Skeletocutis amorpha
(2009)

Skeletocutis nivea
(2011,2012)

Stereum hirsutum
(2008,2009,2010,2011,2012,2013,2014,2015,2016,2017,2018)

Stereum sanguinolentum
Strictement sur Pinus. (2006)

Strobilurus esculentus
(2014)

Strobilurus tenacellus
(2008,2009,2010,2012,2013,2017)

Stropharia semiglobata
(2010)

Tapesia fusca
(2014)

Tarzetta catinus
(2010,2013,2016)

Tarzetta cupularis
(2003,2005)

Trametes hirsuta
(2015)

Trametes hirsuta (f.fibula ?)
(2013)

Trametes versicolor

(2007,2008,2009,2010,2011,2012,2013,2014,2015,2016,2017,2018)

Trechispora vaga

(2007,2009,2010,2014,2015,2019)

Tremella mesenterica

(2008,2010,2015,2016,2017,2019)

Trichaptum abietinum

(2002,2003,2005,2007,2008,2009,2010,2011,2012,2013,2014,2015,2016,2017,2018)

Trichobolus zukalii

(2014)

Tubaria conspersa

(2003)

Tubaria furfuracea

(2009)

Tyromyces wynnei

(2013)

Uromyces pisi-sativi

Uredinale (rouille). Coupelles 0.3-0.5 mm, sur euphorbe (*Euphorbia cyparissias*) (2014,2015,2016)

Ustulina deusta

(2007,2014,2017)

Verpa digitaliformis

En forme de dé à coudre, posé sur le pied. (2006)

Vuilleminia commedens

(2009)

Xylaria carpophila

(2002,2003)

Xylaria hypoxylon

(2002,2003,2005,2008,2018)

Xylaria polymorpha

(2008)
